(check all that apply): Other
If other, please describe: Oil Pipeline coming through Iowa

==Description of Complaint:==

Describe your problem in detail: (Please be sure to include any dates, times, names of persons, or other details that will be helpful to our understanding the problem and seeking resolution.): Governor Brandstad's former Chief of Staff Jeff Boeyink, 2010-2013 is a paid lobbyist for Energy Transfer Partners. I have a big problem with the pipeline being pasted due to insider paid information. Sounds to me as a kickback!

<https://www.desmogblog.com/2015/03/01/iowa-governor-terry-branstad-s-former-chief-staff-now-paid-lobbyist-bakken-oil-pipeline-company>.

I would like this to be looked into. I have seen first hand what an oil spill can do to wildlife, land, and water.

To Iowa Utility Board

I hope you will go along
with President Obama Order
to stop the Crossing of our Rivers.

Dakota Access Company's records
Are Frighting, they own other pipe
Lines. 600 Leaks in 6 years. ON
the line they built last year was
14 Leaks in the first year. Do
you think that is a record that
IOWA'S will take?

The N. Dakota people are
Protesting to save the water of
the Missouri. That river supplies
most of the water to the cities along
it, which is our western Iowa's
larger cities. Also the Des Moines
and Raccoon River, supply all of
the central Iowa's water is
to be crossed, we cannot trust
our water to their pipe line.

I hope you CAN stop this pollution
of our Land AND water before
it ALL come true. Their records
of maintaince on their old lines
is unforgiveable to this Country.

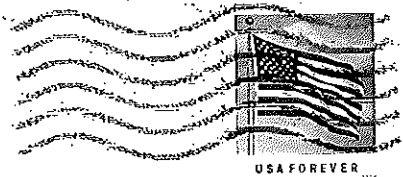

Where are our government Agencies
AND Trump wanted to close the EPA.
Our state doesnt even have a Clean
water Act. you dont HAVE ANY
thing but fines. What are you
or the state do if you let them
put the line in use, and it
Leaks as much as their records
show? Protest! Act! Not much time
God help us!

Hello,

Please revoke all permits for the DAPL that is planning to bore under the Des Moines River. There are reports that there are problems with the engineering of this hole and currently there is a fourth try. This is an export pipeline that does not help the people of Iowa. It is also an extremely dangerous pipeline threatening the water of millions. Please it is not too late to challenge Energy Transfer Partners and come down on the side of the people and your home. Oregon is watching to see great leadership.

best,
Jessie Rose Vala

Attention Iowa Utility Board Members,

You have a young woman and man now in their 8th day of fasting on your Utility Building Grounds. Whether or not you have taken this in, these two people are fasting to death. Let me repeat this, they are fasting to death.

Continuing to ignore them is useless, they are NOT going away. They ask that the Bakken Pipeline permit be revoked.

I am concerned for their lives. Have you acknowledged them? Wouldn't a public servant do that? Wouldn't a fair minded official engage in some kind of dialogue? Ignoring this situation is a retreat into fear and weakness. The situation must be met head on.

Negotiation is an American tradition. There are steps you can take to address this potential tragedy. Ignoring this situation will only cause serious harm to the two committed Americans camped out on your doorstep. You must act now in a fair and honest way to bring this situation to an end.

Subject: University of Iowa Student Government Resolution SSR10- No DAPL

Good afternoon,

My name is Rachel Zuckerman and I serve as the UI undergraduate student body president. Today I am writing on behalf of the University of Iowa Student Government Senate regarding a resolution about the Dakota Access Pipeline that passed on November 15 with 86 percent of the vote in our Senate.

A summary of the resolution is below and the formal legislation is attached:

The University of Iowa Student Government stands in solidarity with the #NoDAPL movement and Native American students, and calls for the termination of the Dakota Access Pipeline in it's current state. The United States has a long, shameful history of stealing from, mistreating, and killing Native Americans, and the University of Iowa Student Government is committed to standing against this pattern of abuse. Many University of Iowa students are directly impacted by the events surrounding the construction of this pipeline, and UISG stands in support of those students.

In addition, the appropriate level of environmental consideration has not been reached for this project. As this pipeline crosses through Iowa, in proximity to the University of Iowa, the University of Iowa Student Government, representing over 23,000 students, calls upon the powers that be to terminate construction and prevent operation of this pipeline.

Senators Jessica Owens and Sean Finn co-authored the legislation and are CC'd on this message. Please let us know if you have any questions.

Thank you for your time.

Sincerely,
Rachel

University of Iowa Student Government

10th Legislative Session-November 8th, 2016

Student Senate Session #12

S.S.R. #10

Sponsor: Senator Owens and Senator Finn

Referred to the Diversity and Sustainability Committee

Student Senate Action: Passed/Failed/Tabled

A Resolution

To stand in solidarity with the #NoDAPL movement, amplify marginalized voices at the University of Iowa and in this country, and call for the termination of the Dakota Access pipeline in its current state.

1 Section 1. Short Title

2 This act may be cited as "Solidarity Against DAPL."

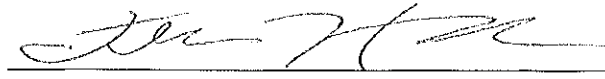

3 **Whereas**, the Dakota Access Pipeline (DAPL) is an underground crude oil pipeline, the
4 construction of which started in early 2016, which plans to carry between 470,000 and
5 570,000 barrels per day through 1,200 miles of North Dakota, South Dakota, Iowa, and
6 Illinois; and,

7 **Whereas**, the pipeline was originally planned to cross under the Missouri River north
8 of Bismarck, ND, but, due to concerns about potential water supply contamination, was
9 rerouted to cross the river half a mile upstream of the Standing Rock Sioux Reservation;
10 and,

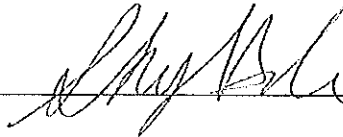

11 **Whereas**, although the Standing Rock Sioux Tribe expressed concerns about threats to
12 their water supply and that the pipeline would disturb cultural, religious, and ancient
13 burial sites, the construction was approved by the U.S. Army Corps of Engineers in July,
14 2016; and,

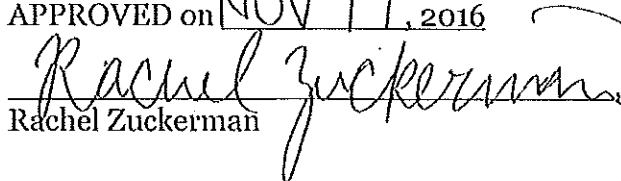

15 **Whereas**, the Standing Rock Sioux Tribe's opposition to the pipeline and requests for
16 consultation have been largely overlooked, up until November 14th 2016, since the
17 original proposal of the pipeline in 2014; and,

46 *Resolved*, the University of Iowa Student Government calls upon the Army Corps
47 of Engineers, the Iowa Utilities Board, President-Elect Trump and President
48 Obama to terminate the Dakota Access Pipeline project in its current state.

_____, **Speaker of the Senate**
Titus Hou

I hereby attest and certify that this bill originated from the 2016-2017 Student Senate Session.

APPROVED on NOV 17, 2016 
_____, **Secretary**
Sheng Hao Lu

_____, **UISG President**
Rachel Zuckerman

Ms. Geri D. Huser, Chair
Iowa Utilities Board
1375 E Court Avenue, Room 69
Des Moines, IA 50319

Dear Ms. Huser:

I attended the Utility board meeting last Thursday, Nov. 17 as part of a group really concerned about the Bakken Pipeline coming through our state. Thank you for listening to our concerns. It was frustrating not to hear any feedback from any of you after many comments from the public.

I would really like to now what you think of climate change. Have you read much about it? I just finished a book by Naomi Klein called "This Changes Everything". I would recommend reading it if you haven't. We must start making changes and it will not be easy but our future depends on it. If 97% of the climate scientists believe human activity is causing climate change we do need to listen. Fossil fuels need to stay in the ground. Please read more about it.

Thank you.

Sincerely,

Bernadette Siebert
